

L' OR TO

Danilo's Gaden

Our family is strongly rooted in traditions.

We have kept the family garden,
from which we get seasonal vegetables.

**It is important to consume zero km products as
much as possible for our health and that of our land.**

OUR GARDEN

At the end of the tasting, remember to ask us
the map of the Cannubi Walk Experince.

You will know more curiosities, and see
with your eyes, seasonal vegetables
also discovering their names in Piedmontese.

THE OLIVE TREES

Along the way you will find some olive trees.
Each plant bears the name of one of the members
of the family. the sheltered and strategic position,
allows us to collect excellent olives
for family use.

FRUIT PLANTS

In the vicinity of our vineyards there are fruit trees.
At one time it was usual to plant them at the beginning
of the vineyard or even inside.

The plants gave shade to those who worked them
and a fruit for refreshment.

Vigna Gorat: table grape pergola

Vigna Battista: fig and almond tree

Vigna Nuova: Apricot plant
